

Detectable Warning Plate R-4984-36Q

General Description:

Reliance Foundry's R-4984-36Q detectable warning plates make high-traffic areas safer and more accessible for the visually impaired. Each cast iron tactile plate measures 24 inches deep and 36 inches wide, and signals changing levels or the transition from sidewalk to street. Boltless locking design makes it easy to connect multiple plates together using lock tabs and slots. Install directly into prepared concrete.
