

Bike Rack, R-8212-EM-SS

Embedded Mounting

General Description:

The R-8212-EM-SS Stainless Steel Compact U-Rack offers a slim form to minimize obstruction when empty-making it ideal for sidewalks and streetscapes with high foot traffic. The tall staple-shape supports 2-point contact with bike frames to avoid tipping. Bikes can be secured using a U-lock or cable between the frame and front or rear wheel. Install circular bike racks in series for custom, high-capacity bike corrals. Stainless steel bike racks are made from 316-grade stainless steel for premium aesthetics and high resistance to corrosion and wear. Embedded in-ground mountings for new concrete installations.

Specifications:

Height: 35 1/2"

Cross Span: 14 1/2"

Weight: 22 lbs

Material: Stainless Steel AISI 316

Finish Options:

- ⊙ Polished with a satin surface finish
 - Available polyester powdercoated options
- See Reliance Foundry's standard color options at www.reliance-foundry.com/bollard/colors-bollards

Notes:

- Embedment details are for reference illustration only. Minimum foundation sizes depend on local soil conditions, weather conditions and engineering requirements.
- Bike rack is provided as shown with parts listed below. Concrete foundation and/or installation not provided by Reliance Foundry.
- This drawing is not drawn to scale. Dimensions provided herein are for reference only. Please consult Reliance Foundry sales professionals if any dimension is critical to your particular installation.
- Reliance Foundry reserves the right to amend design and specifications without prior notice for product improvement.

Bike Rack, R-8212-FL-SS

Drop-in Anchor Installation:

- 1) Use a carbide tip drill bit (conforming to ANSI B 212.15) to drill 1/2" x 1 1/2" hole (dia. x depth)
- 2) Clean drill hole of debris
- 3) Insert anchor into drill hole
- 4) Use hammer and proper setting tool* (for 3/8" Drop-In Anchor from UCAN) to drive plug down
- 5) Fasten button head screw (Maximum torque 10 ft x lbf)

* Substitute a narrow punch tool at installer's risk

General Description:

The R-8212-FL-SS Stainless Steel Compact U-Rack offers a slim form to minimize obstruction when empty-making it ideal for sidewalks and streetscapes with high foot traffic. The tall staple-shape supports 2-point contact with bike frames to avoid tipping. Bikes can be secured using a U-lock or cable between the frame and front or rear wheel. Install circular bike racks in series for custom, high-capacity bike corrals. Stainless steel bike racks are made from 316-grade stainless steel for premium aesthetics and high resistance to corrosion and wear. Bolt-down flanges for existing concrete surfaces.
