General Description:

The R-8212-EM-SS Stainless Steel Compact U-Rack offers a slim form to minimize obstruction when empty—making it ideal for sidewalks and streetscapes with high foot traffic. The tall staple-shape supports 2-point contact with bike frames to avoid tipping. Bikes can be secured using a U-lock or cable between the frame and front or rear wheel. Install circular bike racks in series for custom, high-capacity bike corrals. Stainless steel bike racks are made from 316-grade stainless steel for premium aesthetics and high resistance to corrosion and wear. Embedded in-ground mountings for new concrete installations.

Specifications:

- Height: 35 1/2" 
- Cross Span: 14 1/2" 
- Weight: 22 lbs 
- Material: Stainless Steel AISI 316 

Finish Options:
- Polished with a satin surface finish 
- Available polyester powdercoated options

See Reliance Foundry's standard color options at www.reliance-foundry.com/bollard/colors-bollards

Notes:

- Embedment details are for reference illustration only. Minimum foundation sizes depend on local soil conditions, weather conditions and engineering requirements. Bike rack is provided as shown with parts listed below. Concrete foundation and/or installation not provided by Reliance Foundry. 
- This drawing is not drawn to scale. Dimensions provided herein are for reference only. Please consult Reliance Foundry sales professionals if any dimension is critical to your particular installation. 
- Reliance Foundry reserves the right to amend design and specifications without prior notice for product improvement.
